“*Dave's family, so sorry for your loss. I worked with Dave back in early 80's at both Behlen's and Orion. We were in the first Machining class Platte Technical Community College (as it was known back then) offered. I was constantly amazed at Dave's technical know-how and innate ability to quickly pickup machining knowledge and experience. While most of us were making simple things on lathes and mills, Dave was making covers for his Harley!*

“*To Dave's family,
We realize that Dave's obituary states that private services with the family will be held at a later date. We would like your permission to attend. Roger and Dave attended high school together and went into the service together. It would mean a lot to Roger to attend. If you are OK with us attending, please text details to 402-649-7286.
